#2. Your photographs (rated 6 / 10) are adequate for determining grade and authenticity. Although it's difficult to ascertain condition from these photographs, these images are sufficient to determine much important information.

#3. Current Market Value (1/3/2022)

This coin has a current market value of \$0.01. After reviewing your coin carefully, we have determined that it is a damaged coin. We do not believe it to be any sort of error.
